Independent invariants to the total affine transformation of the symmetric 3D tensor fields from the order 0 to 5

The generating graph is given by the list of edges, e.g. the column $\begin{matrix}1\\2\\3\end{matrix}$ means a three-edge connecting the nodes 1, 2 and 3. The letter "V" means contravariant value index. The three-edges are drawn as tripods with three arms. The black arm correspond to the coordinate index and the magenta arm correspond to the contravariant value index.
